

INTRODUCING THE SOL STUDIO

The **Sol Studio** is a versatile backyard accompaniment that is growing in popularity as homeowners continue to invest in upgrading their own properties. The Sol Studio is 120 square feet of living space that can be used as an artists' studio, entertainment center, home office, kids' play area or just for hanging out in the backyard on a warm summer's day. The Studio can be outfitted with a ductless heat pump for year-round use, which can be grid tied or run off an optional solar package. Glamping will never be the same.

BASE PRICE:
\$29,000

- Material and Build Included
- Optional Add-ons

*Foundation not included
